and washer

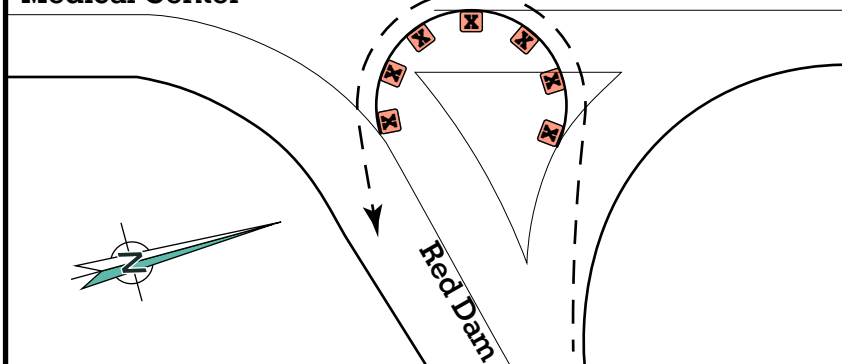

Light pole# LSP3025

Turn-Around DETAIL

The turn-around is a sweeping half-circle located at the intersection of Red Dam Rd and Medical Center Dr. The diameter of the circle is 39'. The circumference of the half-circle is marked with mag nails and washers to be used for cone placement on race day. The western edge of the circle is 11' from the western road edge of Medical Center Drive. The dashed line represents the measured path which was measured 20cm outside the nails
